Family Contract

Respite Definition: Planned or emergency short term relief services provided to the individual's unpaid caregiver when the caregiver is temporary unavailable to provide supports due to non-routine circumstances. "Non-routine" is intended to allow for regularly scheduled respite services. Respite may be provided regularly but is not intended to provide caregiver relief during routine caregiver working hours (e.g., Day Care). Even though respite can be provided over a 24 hour period the rate of pay will only equal 10 hours.

Activities that are not Allowed According to Texas Department of Aging and Disability Services:

- a) Continuous overnight placement for more than 30 consecutive days.
- b) Respite care provided to individuals who live independently.
- c) Respite may not be provided during the same time period that Day Habilitation, Community Support, Supported Employment or Employment Assistance is provided.
- d) Respite care provided during normal school hours/days.
- e) Respite provided by a person under the age of 18.
- f) Respite provided by a person living within the same home.
- g) Using a respite provider that has not been approved through a contract process.

This respite contract allows you to hire a respite provider(s) of your own choosing. You can hire a friend; a family member living outside of the home, or a neighbor. You may choose more than one respite provider. The respite provider(s) you choose will be responsible for delivering the services authorized.

This respite contract is NOT your authorization to start respite services. The authorization will be sent to you once the contract is in place, and when the service coordinator assigned to you and/or your loved one completes the Person Directed Plan with the respite service and hours indicated. A Letter of Authorization (LOA) with those hours indicated will be sent to you with copies of the contact notes and claim forms.

The LOA will show you the date respite services can start, the date it will end and the number of hours you can use. You will be able to spend up to the total dollar amount which will be specified on the LOA for respite. You will be reimbursed the amount you spend up to this amount provided you meet each family responsibility listed below.
